City Association Place

NEW YORK, Oct. 1.—Reunited

after many years of glory and strife

on the diamond a great trio of base

ball players have brought the New

York Giants through this season's

battles for the pennant. John Mc-

Graw, Hughey Jennings, Jesse Bur-

kett—the names of all three are writ-

ten at the top of the list of base-

ball heroes.

McGraw in pushing his twentieth

year as manager of the Giants and

in this year he has had his first as-

sistant Jennings, his old teammate,

on the old team of oracles of base-

ball, Tim Lincecum and Burckett, as the second

deputy. The individual records of

this trio at bat and field stands out

among the greatest in the history of

the game.

Burckett has never had the good

fortune to manage a major league

team, but McGraw has placed the

Giants to a goodly string

of three and Jennings won three

pennants for the Giants.

MOONSHINE DRUNK GETS

FINED IN POLICE COURT

A Jordan, a Greek, ran amuck in

Main street last night and threaten-

ed to wipe out the ground with De-

puty Sheriff A. A. Clute and District

Attorney Frank T. Dunn. He was

quickly subdued and taken to jail to

sleep off the effects of too much

moonshine. He was taken before

Justice Clute this morning when

he entered a plea of guilty to the

charge of intoxication and was fined

\$25. He paid the money and was

discharged.

TONOPAH NEVADA

BOTH STYLE AND COMFORT

IN AUTUMN SCHOOL FROCKS

FOR young women in school, frocks

must be comfortable and practical

and these two requisites must

put themselves in the company of

smart style, or the younger set won't

be able to wear them at all. It amounts

to almost a tragedy in the life of a

daughter when she finds herself com-

pelled to wear clothes that are mere-

ly sensible, although some of the best

schools condemn her to a uniform.

Either she discovers that the uniform

has a style in its own right, or the school

undertakes to keep her so busy that

she forgets it and thus the lateness

squares from her days.

But specialists, whose business is

the clothing of youth, have succeeded

in introducing all sorts of capitalizing

fancies on frocks for both the younger

and older school girls. Two models,

that are sure to please the college girl,

combine style with comfort in simple

dresses that will meet the approval of

even the most critical of elders. One

of them as shown above is a wool

frock in shepherd's plaid, on which

yarn has been cleverly employed for

handings about the skirt and on the

belt. It is put on in the simplest

stitches and the loose belt fastens on

der a smart bel buckle. Yarn in other

varieties of color and in fringes

is destined to play an important part

in clothes for young people. Worn

with a modish felt hat and with a

scarf especially one of fur, the

frock might provide the basis of many

an older sister.

An indoor dress shown at the left

is less prettily youthful, especially

as it is developed in crepe de chine.

But it is unusual of ornament except

for a group of rucks about the bottom

of the skirt. They are interrupted at

each side by a simple panel. A band

of plain, solid webbing about the

neck and part way down the front is

supplemented by a few vertical bot-

tom in each side of the front. The

soft drapery is made of the same ma-

terial as the dress. This is a very

adaptable dress and a versatile and

resourceful girl will make much of it

for it can be much furnished up with

pretty accessories.

NEW STATION

BEING CUT IN

DIVIDE MINE

The shaft of the Tonopah Divide

has attained a depth of 1100 feet,

and a shaft now is being cut. An

estimate of the work has been com-

pleted and will again be resumed and

will proceed without interruption un-

til the shaft level has been reached.

Since work was resumed in sinking

a shaft the shaft has been lower-

ed just 100 feet, and the official

report of development that was per-

formed for two or three days ending

September 28, was as follows:

"The 251 level at 25 feet, drift

and advanced 22 feet; intermediate

drift 111 was advanced 12 feet, main

shaft was sunk 12 feet and the 1100

level was cut 5 feet.

"The usual amount of ore was

obtained in the bottom mill, average-

dly for two days, while the values

were reported to be about the usual

amount.

The Tonopah Divide mine is going

to have a shaft of its own

eventually, on as soon as the water

level is reached. This announcement

was made by H. F. Brumby, presi-

dent of the company, while here re-

cently. The plant will be modern in

every respect and will be of suffi-

cient capacity to provide treatment

at once from a number of other prop-

erties in the district, which will
